SAFE N' HAPPY PERIODS AN EXPERIENCE AT MIJWAN August 15th to August 18th 2017

We cannot thank Shabana Azmi Ji enough for giving us an opportunity to be at Mijwan. MIJWAN, a true example of how a vision and intention together can change the face of a village, change the lives of people . It was astounding and inspiring to see Mijwan bringing change and inspiring women to be confident and independent in every way.

After the session, with girls and staff at the Kaifi Azmi School.

“It was a much needed workshop for our girls and teachers. We look forward to seeing you again to do more workshops for us”

***Samina Ji
Principal
Kaifi Azmi School
MIJWAN***

Session in progress, with girls at the Kaifi Azmi Tailoring & Stitching Centre in presence of Samyukta Ji.

“We loved being with the team of Safe N’ Happy. Our girls learned so much about menstruation and pain reducing asanas. We were glad they came all the way to Mijwan”

Samyukta Ji, Head at Mijwan Stitching Centre.

During our 3 days stay in Mijwaan, we conducted four workshops, through which we addressed almost 250 girls from Kaifi Azmi High School and Inter College, about 50 women from the Kaifi Azmi Sewing and Tailoring Center, and 200 girls from two near by government schools in the same village. Through our workshops, we talked openly about healthy menstrual practices and menstrual pain management with Yoga-Asanas. The workshops covered information about different aspects of Menstruation like proper hygiene, different types of sanitary products and the right way of using and disposing such.

Safe n' Happy Periods, a personal social impact initiative was founded by Sarika Gupta, which is funded by family, friends and well-wishers. Looking at the current situation of myths, taboos and insufficient menstrual awareness, Sarika decided to take this initiative towards shame-free and pain-free menstruation time. The vision is to break the stigma around periods and to encourage girls & women to feel confident in their bodies.

We had not expected to interact with girls of other schools. Thanks to their heads who requested for our workshops for their girls too.

"The girls really enjoyed our workshops. They came with no expectations but shared their joy with us for knowing things their mothers would never talk to them about "
